SUMMARY

Full-stack developer building type-safe web applications with React, Next.js, TypeScript, Node.js, Express, and PostgreSQL. Currently working as a Full-Stack App Developer Intern, implementing frontend features and backend API integrations in a team environment with code reviews. Built and deployed 12+ React and Next.js projects covering authentication, real-time data, state management, and data visualization. Comfortable owning a feature from UI to API to deployment.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), SQL, HTML5, CSS3

Frontend: React.js, Next.js, TanStack, React Router, Context API, Tailwind CSS, Chart.js, Recharts

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, bcrypt, Prisma ORM, PostgreSQL

Tools & Platforms: Git, GitHub, Turborepo, Postman, Vite, npm, nvm, Firebase, Vercel, Netlify

Core Concepts: Full-Stack Development, API Integration, Authentication & Authorization, State Management, Responsive Design, Code Review

EXPERIENCE

Full-Stack App Developer Intern | Crispr Coders Pvt. Ltd. (Remote) **Oct 2026 - Present**

- Develop frontend features and backend API integrations across the stack using React, TypeScript, Node.js, Express.js, and Prisma with PostgreSQL.
- Manage server state and data fetching in React applications using TanStack.
- Work in a Turborepo monorepo that includes a shared SDK package, using nvm to keep Node versions consistent across the team.
- Collaborate with teammates on shared tasks and participate in code reviews to maintain code quality.

PROJECTS

TaskFlow Task Management App | Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL | Live Demo | Source Code

- Full-stack project and task management application built with Next.js and TypeScript, deployed on Vercel.
- Persists data in PostgreSQL through Prisma, with a typed data layer connecting the UI to the database.

Next.js TypeScript Dashboard | Next.js, TypeScript, React | Live Demo | Source Code

- Type-safe analytics dashboard using interfaces, union types, and generics across components, props, and API data models.

Next.js Expense Tracker | Next.js (App Router), Tailwind CSS, Recharts | Live Demo | Source Code

- Expense tracker with persistent local storage, interactive Recharts spending breakdowns, and a fully responsive layout.
